

THE PROVEN FORMULA FOR SUCCESS

Many people have a genuine desire to improve their lifestyle and that of their families and in many circumstances this requires additional finances. As with most businesses, careful thought and planning is required in order to achieve the desired results. This valuable guide has been developed to provide new members with the necessary tools to start off in the right direction. At F.S.I. Srl we realize that your success is our success and also that our expansion and development will benefit you. Therefore we are totally dedicated to providing the highest level of service and support, now and for many years to come!

All the information regarding 'Pentagono', managed by F.S.I Srl (Srl, being the Italian abbreviation for a registered limited Company) is available on the company home page

<http://www.future.it>

F.S.I. Srl has been enrolled with the Italian Chamber of Commerce & Industry in the city of Modena since 1994. It operates worldwide in compliance with its registration with the Italian Authorities (C.C.I.A.A. 276952 - V.A.T. IT02252430364 - Registration Number 40912).

The company F.S.I Srl is completely debt free, privately owned company with no affiliations to any group or business. The main purpose of the company is to administer the Pentagono system as an ethical and honest opportunity for everyone. We are paying about 50% Tax and 20% Vat, according with the Italian laws. Then, more than 80% profits are re invested into new equipment and software to enable our company to efficiently service the existing market and also to continue to expand internationally.

The Pentagono system has proven to be simple, effective and highly successful! It is fully administrated by F.S.I. Srl and it has been decided to operate solely from the offices in Carpi - Italy, and not to have other agencies in any other country. The reason for this is to operate the system to a very high level of efficiency and to provide the fastest service to all participants World Wide!

The Pentagono system was operating successfully in Italy on a five level structure, hence the name Pentagono, meaning 5 sides. Because of the overwhelming popularity of this brilliant system, it was decided to expand internationally and give many more people in other countries the opportunity to gain wealth. After extensive research, it was also decided to alter the levels to 3 wide and 7 deep with a bonus option. Research proved this to be the best mathematical payment plan for all participants.

Many people (and also organizations and charities) throughout the World have benefited from this program of wealth re distribution. Most money these days is controlled by politicians, banks and large corporations, Pentagono simply allows money to be shared between ordinary people.

The success of Pentagono will continue for many years to come.

"Anyone with a purposeful goal, who is committed and dedicated to achievement, is virtually unstoppable"

Things you should know about the Pentagono "Multi-Level Marketing" Business System:

Pentagono is a "money generating system" run by a moral, ethical company. Pentagono does not fit the criteria of a pyramid selling scheme. One also must bear in mind that almost all organisations are based on a pyramid (hierarchical) type of structure. However, unlike the illegal pyramid selling schemes, Pentagono allows all involved their time at the top of the system.

All team-mates that join make an "investment" of US\$120 and have the same opportunity to become successful. Our aim is to run an efficient program which benefits all members. We operate on a worldwide basis and the success of the Pentagono system can be seen through countless happy participants who are grateful for this unique opportunity we have offered them.

Rest assured that participating in Pentagono is safe and kindly advise any worried member of these important facts.

In any business, the amount of energy put in is equal to the gain received. This is very true in this particular opportunity. What we will present is what many have found works best in keeping the system active and making everyone a winner. After all, success is the aim of every business!

When Pentagono started in your Country it was important to verify its legality before anybody entered the system. In doing so we made different contacts. These contacts assured us of Pentagono's legality for the reasons stated below:

1. The product is the key. You are purchasing a **discount card** good for discounts throughout the world at participating merchants. As soon as you use it at a hotel, gift shop or a restaurant it is worth its value even if you never sold a Certificate. This is just like the Entertainment Book or other discount books or card systems.

2. There is no misrepresentation. Everyone who enters the system knows that the moment they sell a Certificate their name goes to the number 6 Position and is protected throughout the game via Auto Re-generation of Certificates. As there is no promise of money ever made, it legitimises the intent of the system...having fun and trying something new. It is easy to check out how you and your participants are doing through the Activity Report available on Internet.

3. In order for this to be illegal, a judge would have to deem it so. Only a judge could make this multi-level marketing strategy illegal. This would only happen through someone involved misrepresenting themselves or the ideas behind the business system i.e. someone saying "join in you will make \$100,000 guaranteed", instead of "it has the potential to make you earn money". You can only say what you know to be true.
